JavaScript

TypeScript

Reactjs

Nextjs

Redux

PWA

Css / Sass

version control :
Git , Fork

Css frameworks :
Tailwindcss / MUI / Bootstrap / React bootstrap

PROJECTS

User Portfolio
Technologies: ReactJS, Tailwind CSS

- Developed a personal website portfolio showcasing user abilities, skills, education, and projects.
- Designed and built the site using ReactJS and Tailwind CSS for a responsive and visually appealing user experience.
- Included sections highlighting the user's professional background, projects, and educational qualifications.

Axies-NFT-Market-Place: My JavaScript Debut
Technologies: Javascript, sass

- Axies-NFT-Market-Place is not just a project; it's my JavaScript initiation. As my first venture into pure JS development, this marketplace is dedicated to showcasing animated monsters as Non-Fungible Tokens (NFTs). It represents my passion for merging creativity with code, setting the stage for future innovative projects.
